

# 1:12 Scale Noguchi Lounge Table 1948

## Scroll Saw Pattern

Noguchi Table designed by Isamu Noguchi  
Scroll Saw Pattern by AmazingMiniatures.com

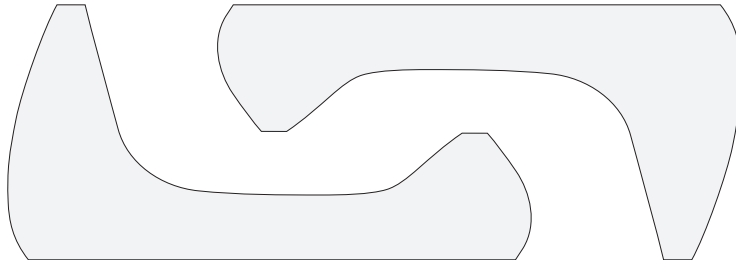

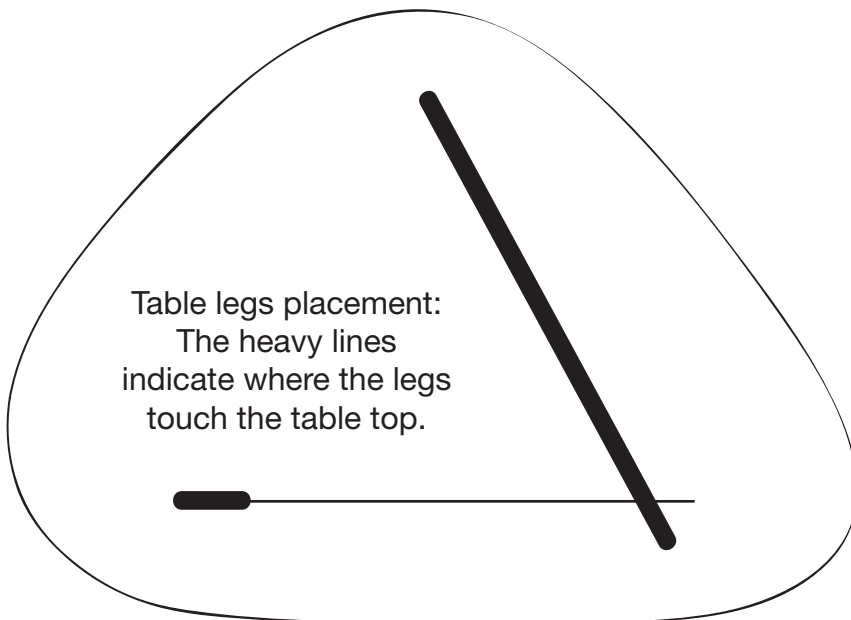

Table Legs:  
Cut on 1/8" - 5/32"  
Thick Wood

Instructions: Cut out and apply the scroll saw pattern to the material with clear tape and/or spray adhesive. Cut out the shapes with a scroll saw, following the lines. Shape the curve of the table legs to your preference, or leave as is. Sand the table legs to make sure that the fit is level. Glue the table legs together with wood glue, using the guide below. Finish the table legs in a color or stain of your choice. Then using the guide below, glue the table legs to the table top with a polyurethane based glue or leave the table top and base unattached.

Table Top:  
Cut on 1/16" - 3/32"  
Thick Plexiglas
